May cause an allergic skin reaction.

Section 5

Fire Fighting Measures

Extinguishing media

Suitable media: Carbon dioxide, Dry chemical, Foam.

Special hazards arising from the substance or mixture

In case of fire, may be liberated: Carbon monoxide, Unidentified organic compounds.

Advice for fire fighters:

In case of insufficient ventilation, wear suitable respiratory equipment.

Section 6

Exposure Controls / Personal Protection

Workplace Exposure Limits

Not applicable.

Engineering Controls

Increase ventilation with local exhaust ventilation where high or prolonged use, high temperature, or other conditions increase exposure.

Eye / Skin Protection

Wear protective gloves, eye protection, and face protection.

Respiratory Protection

Under normal conditions of use and where adequate ventilation is available to prevent build up of excessive vapour, this material should not require special engineering controls. However, in conditions of high or prolonged use, or high temperature or other conditions which increase exposure, the following engineering controls can be used to minimise exposure to personnel: a) Increase ventilation of the area with local exhaust ventilation. b) Personnel can use an approved, appropriately fitted respirator with organic vapour cartridge or canisters and particulate filters. c) Use closed systems for transferring and processing this material.
